

Cloud Dough

Ingredients

Flour
Baby Oil

Method

1. Add 2 cups flour to a large bowl.
2. Add ¼ cup of oil. Stir to combine.
3. Knead the dough with your hands to fully mix.

NOTE: Because cloud dough is oil based, standard food colouring doesn't work very well with it. If you use it your dough will have a stippled look to it. You can use paint or chalk to colour the dough. But the children love the white dough just as much.
