June 20, 2019

Dear Year 6 Parents,

During our economics unit, students will have a chance to become producers. Each student will create a good to “sell” at our classroom Market Day. These goods will only be made from **paper** provided by the school. After deciding on a product, students will need to make at least 10 of this item in order to open his/her store for our Market Day. While majority of this will be done during class time, they may need to take some home, to ensure they are prepared on time for the Market day on Thursday, Week 10.

**WHAT CAN YOU DO?**

I encourage you to spend some time brainstorming and researching ideas with your child. All products must be made of paper from school. Please do not go out and buy materials for this project. Be creative! Some ideas include; bookmarks, pictures, flowers, purses, footballs, aeroplanes.... the possibilities are endless! Pinterest is a great source for ideas.

**EXTRA DETAILS:** Glue, tape, and/or string may be used to assemble products. Please do not use any other items. We want it to be a fair marketplace for all entrepreneurs.

Students will need to know what product they are going to be ‘selling’ by Monday, Week 10 (June 24). Construction will begin on that day.

Kind Regards,

Tori Johnson – Year 6 Teacher
