## GUITAR

My name is Huib Hubrecht Jacobus BEUGELAAR. Huib is short for Hubrecht and is pronounced Hope.

I was born on the 26,11,1956 in Holland, I came out to Australia with my Family in 1969.

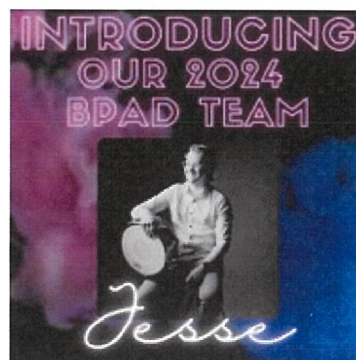

I've been in the music industry for most of my life. This includes writing original music for film and commercials. We had an original band some of which did go on Tv and other social media, Including Rage, whilst touring I got invited to play on stage with some well-known artists.

One of my favorites Ian Moss from Cold Chisel, also did a lot of support gigs with Renee Geyer, Mic Fleetwood Party Boys, pseudo echo to name a few.

I am familiar with most instruments and play a lot of those by ear and write these in the modern Tab form, my main instrument is guitar.

I have Toured the Eastern states for around 9 Years playing to audiences for upto 8000 a night with cover songs and originals, I eventually came back to Perth WA and taught music for guitar and pursuing an original music.

I have been teaching guitar in the areas of Harvey and Bunbury these were mainly home visits for my clients and were beginners to advanced.

## DRUMS

Jesse has been learning drums for just over 15 years, and professionally working as a musician for 5 years.

Jesse has won many awards for his exceptional playing skills throughout the years, being the youngest musician to win the Outstanding Jazz Soloist Award at the Queens Cup Contest, and also the only drummer to ever receive the Outstanding Jazz Soloist Award and Elected Instrument Specialist Award in the Queens Cup's history.

As well as this, Jesse has also been awarded these same awards multiple times, showing a consistent excellence behind his instrument.

After graduating with a music scholarship from Australind Senior High School's prestigious Jazz Program, Jesse studied at the Western Australian Academy of Performing Arts (WAAPA).

After Jesse finished his studies in WAAPA, Jesse went on to teach, being in high demand at JD's Music Tuition in Bunbury for his flexible approach to teaching drums which was letting students excel in their technique without making the subjects too hard or confusing for students.

Jesse has a firm belief that anyone can play music, and it does not have to be nearly as daunting as some people would lead you to believe.

If you would like to take lessons to learn drums for fun, to get into professional work, or even to master your current instrumental skills, Jesse is able to help you reach your goals.
